How It Works:

Step 1 - Create Artwork

Conduct an art session with your class or group by following the artwork guidelines provided. Definitely use your imagination if you wish to set a theme for your artwork. Themes such a family portraits, pets, favorite things to do, or holidays do well. Just make it FUN. One of the most effective motivators for truly memorable artwork is to let the members know that their artwork will appear on real greeting cards and gifts that their families and relatives will use.

Step 2 - Send in the artwork

After organizing the artwork by classes and making sure the name and teacher name is on the backside, mail completed pieces of art to
